Allowance

Allowable Subject Matter

Claims 1-20, and 22 are allowed.

The following is an examiner's statement of reasons for allowance: The known prior art does not fairly suggest the apparatus of claims 1, 12, 13, 19, and 20. Specifically, claim 1, 13, 20 includes a synthesizing means for synthesizing the plurality of reception signals, scanning line by line, filtering-processing by the filter means, producing means for producing image data of the region using the reception signals synthesized by the synthesizing means, and display means for displaying the image data produced by the producing means. Claim 12 teaches a receiving unit configured to receive echo signals of the ultrasonic pulse responsively to each of the plurality of times of transmission of the ultrasonic pulse along each scanning line, and processing the echo signal received each time into a harmonic signal having a broader -bandwidth spectrum characteristic. Claim 22 teaches a filter configured to apply filtering processing to each reception signal acquired by the receiving unit, a characteristic of the filtering processing applied to each of the reception signal along each scanning line being different from one another. Christopher can be operated in two pulse modes (figure 12) but does not teach a synthesizing means for synthesizing the plurality of reception signals, scanning line by line, filtering-processing by the filter means, producing means for producing image data of the region using the reception signals synthesized by the synthesizing means, and display means for displaying the image data produced by the producing means. Averkiou et al., discloses a means for

harmonic image (claims 1-5) but does not teach a filter configured to apply filtering processing to each reception signal acquired by the receiving unit, a characteristic of the filtering processing applied to each of the reception signal along each scanning line being different from one another

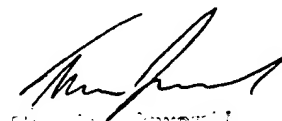

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
